PSTI Statement of Compliance

Manufacturer:
Name: Mako Networks, Inc. and Mako Networks Limited (UK)
Address: 1355 N McLean Blvd, Elgin IL 60123

We, Mako Networks, Inc. hereby declare that under our own responsibility, our devices fully comply with the applicable security requirements in Schedule 1 of The Product Security and Telecommunications Infrastructure (Security Requirements for Relevant Connectable Products) Regulations 2023.

To the extent applicable, this statement is provided for transparency and compliance purposes. Mako Networks primarily serves business customers rather than consumers, which may affect the applicability of these regulations to our products. However, we are committed to maintaining high security standards regardless of regulatory requirements.

Please note that all Mako Networks devices require a separate monthly license to function. These licenses provide access to our cloud management platform and security services, which are essential for the proper operation of our devices.

Schedule 1 specifies security requirements that relate to manufacturers of relevant connectable products which includes the Mako Networks brand and its subsidiaries. This includes the following:

1. Password is unique per device or defined by the user of the device, and the password which is unique per device is generated by using a security mechanism that reduces the risk of automated attacks against a class or type of device.

2. Users can report vulnerabilities to Mako Networks via **https://makonetworks.com/contact/** or **legal@makonetworks.com**. Furthermore, users will receive acknowledgment of the receipt of a security issues report and status updates until the reported security issue is resolved.

3. Mako Networks will provide security updates for our products during the pre-defined support period. The defined support period will end 3 years after the product's end-of-life date. Up-to-date information concerning the defined support periods for the entire Mako Networks product range are listed below.
